INVIOLEATE, HYGIENIC AND DISCARDABLE SEAL TO PROTECT THE
SUPERIOR PART OF CAN BEVERAGES IN GENERAL”.

Description

5 The present report deals with a detailed description
accompanied of elucidative drawings of a new gadget or seal like an inviolate,
hygienic and discardable or seal to protect the superior part of can beverages in
general, to be adapt by the industry immediately after the filling up and cleaning of
the cans, making this before the distribution to the consumers. It will protect the
10 surface of the superior part of the cans where the mouth will come in contact for
drinking, offering total hygiene to the usurious.

 Until the present moment no other gadget or seal like
this, is known in the market with the same function and characteristics of this
inviolate, hygienic and discardable seal to protect the superior part of can beverages
15 in general, proposed in this descriptive report.

 This inviolate, hygienic and discardable seal to
protect the superior part of can beverages in general, object of this present report,
serves as a protection for the surface of the superior part of the can beverage for the
side where the mouth will have contact in order for drinking to be possible. This
20 way it offers total hygiene for those who use the cans, as well as it avoids the
accumulation of dirt and/or other pollutants which may be deposited in the cans
during the transportation and storage that can cause or provoke illness to people.

 Next, we refer to the figures enclosed, which
accompany this descriptive report, for better understanding and illustrating the seal,
25 as well:

FIGURE 1. Shows a side-view with all configuration details of the gadget or seal in its superior part.

FIGURE 2. Shows a superior view of the seal in its superior part.

5 The inviolate, hygienic and discardable seal to protect the superior part of can beverages in general, object of this present report, has the principal objective of maintaining the lid on the superior part of can beverages always clean and hygienic since the manufacture to the final consumer, avoiding the accumulation of dirt and illness to consumers, being manufactured in
10 discardable material suitable to the can itself, like plastic, malleable metal, acrylic and others convenient materials, which its form accompanied the design of the superior part of the can (2), like showing on FIGURE 2, protecting the surface (3) and the side (4) in sufficient length to cover the contact of the mouth with the can (5) conformed, shaped, putted, fixed, thermo-fixed, etc. in the superior part of the
15 can, and also being able to be made of only one part or more parts, having a mechanism or fast hand opening system (6) which can be of any convenient and adaptable design.

 As we can clearly see in the above description, the
"INVIOLE, HYGIENIC AND DISCARDABLE SEAL TO PROTECT THE
20 SUPERIOR PART OF CAN BEVERAGES IN GENERAL" is an extremely practical healthy serviceable gadget or seal which offers innumerable advantages, of easy use and manufacture being, this way, filled of characteristics which makes it deserve the Patent Privilege of the Utility Model.

CLAIM

1 - "INVIOLEATE, HYGIENIC AND
DISCARDABLE SEAL TO PROTECT THE SUPERIOR PART OF CAN
BEVERAGES IN GENERAL" chararterized by to protect and maintain the lid on
5 the superior part of can beverages always clean and hygienic since the manufacture
to the final consumer, avoiding the accumulation of dirt and illness to consumers,
being manufactured in discardable material suitable to the can itself (like plastic,
malleable metal, acrylic and others convenient materials), which its form
accompanied the design of the superior part of the can (2), as showed on FIGURE
10 2, protecting the surface (3) and the lateral part of the can (4) in sufficient length to
cover the contact of the mouth with the can (5), said seal conformed, shaped,
putted, fixed, thermo-fixed, etc. in the superior part of the can, and also being able
to be made of only one part or more parts, having a mechanism or fast hand
opening system (6) which can be of any convenient and adaptable design.

INTERNATIONAL SEARCH REPORT

International Application No

PCT/BR 96/00028

A. CLASSIFICATION OF SUBJECT MATTER
IPC 6 B65D17/34 B65D51/18

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
IPC 6 B65D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US,A,4 927 048 (HOWARD) 22 May 1990 see column 2, line 39 - column 3, line 22; figures 1-5	1

☒ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

* Special categories of cited documents:

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier document but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- "&" document member of the same patent family

Date of the actual completion of the international search

30 September 1996
